

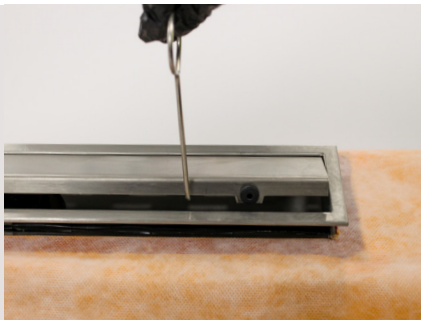
Schlüter®-KERDI-LINE-G3

Cleaning Instructions

1

Carefully remove the stainless-steel grate from the surrounding frame. If removing the tileable grate, ensure the supplied hook is used so as not to damage the tile or stone.



2

Pull up the odour trap catch by hooking your finger underneath the black flap.

3

Remove the odour trap.

4

Rinse the trap with warm water.

5

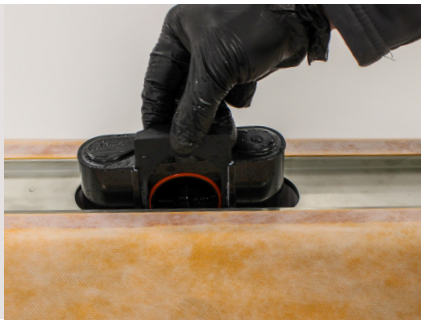
Household cleaners and brushes can be used to clear any stubborn grime.

6

Clean the entire stainless steel channel length with a suitable brush

7

Reinsert the odour trap ensuring the black release catch is up.



8

Once the odour trap is pushed down as far as possible, push the release catch back down into position.
