RE: Living Building Challenge Red List Determination Letter

To Whom It May Concern,

Based on information provided by suppliers, WAP Sustainability Consulting attests that the following Schluter®-Systems waterproofing and uncoupling membrane products do not contain any chemical substances listed on the Living Building Challenge (LBC) Red List, effective April 2024, above 100ppm (0.01%) by weight in the products.

- Schluter®-KERDI and KERDI-DS, including all sizes and product formats
- Schluter®-DITRA and DITRA-XL, including all sizes and product formats

The LBC Red List is updated annually, and products will be screened annually against the most up-to-date LBC Red List to attest conformity.

For any questions, please contact your Schluter®-Systems sales representative.

Sincerely,

Kathleen Kissinger
