

Tileable Grate with Thin Frame

Schlüter®-KERDI-LINE-TF

Thin stainless steel frame

Modern Finish. Reliable Tile Protection.

KERDI-LINE-TF provides a sleek appearance whilst protecting the tile edge. The thin stainless steel frame shields tile edges from chipping and safeguards the grate during removal and cleaning.

Edge protection

Protects the tile edges around the grate opening and surrounding tile from chipping or cracking.

Precise grout lines

Creates a defined boundary that helps maintain clean, consistent grout lines and ensures precise tile alignment, making this frame ideal for mosaics or small-format tile.

Ease of maintenance

The thin frame allows the grate to be easily removed and reinserted without disturbing the surrounding tiles or grout.

Ideal for entry or intermediate placement

Use with all Schlüter linear drains. The tileable grate with thin frame is compatible with all KERDI-LINE variants, whether installed in combination with screed to fall or KERDI-SHOWER boards.

Product variants

KERDI-LINE-TF is available in three frame heights for different tile thicknesses and eight lengths to accommodate various shower configurations.

Frame Height: 6 mm

Minimum Tile Thickness	Maximum Tile Thickness
5 mm	6 mm

Frame Height: 12.5 mm

Minimum Tile Thickness	Maximum Tile Thickness
7 mm	12 mm

Frame Height: 22.5 mm

Minimum Tile Thickness	Maximum Tile Thickness
16 mm	20 mm

The original frameless TILE grate

The original KERDI-LINE tileable grate is still available, for more design freedom, and delivers a clean, uninterrupted look that blends seamlessly with large-format tile. Its frameless design allows for flush-to-wall, wall-to-wall, or entry placement, offering a continuous surface that lets the tile take center stage.

Ideal for:

Large-format tile | Flush-to-wall or wall-to-wall installations | Clean, continuous designs
