

## We're hiring!

# IT Business Analyst (WMS)

Montreal, QC

### Who you are...

The IT Business Analyst will work closely with the current WMS (Warehouse Management System) utilized by the company (LFS). They will focus on modernizing digital logistics processes while also supporting users of the application.

### What you'll do...

- Analyzing, modeling, redesigning, and implementing IT solutions in close cooperation with other cross-functional departments for:
  - Internal and external logistics processes (i.e. production supply, warehouse strategies, loading processes)
  - Digital picking methods (i.e. MDE, pick by voice)
  - Shipping solutions (i.e. connection to shipping service providers)
  - Dock and yard management
- Ensuring the performance and availability of high-quality and sustainable IT solutions in the warehouse and logistics departments
- Active participation in the implementation of local and international projects
- Support in defining requirements, technical implementation, and the transfer of change initiatives
- Creating necessary process documentation

### We're looking for...

- Bachelor's degree Computer Science, Information Technology, or Data Systems, or comparable work experience
- 3-5 years of professional experience in the field of WMS preferred
- Bilingual in both English and French in order to communicate with international colleagues
- Basic understanding of IT software architecture and business processes
- Enthusiasm for new, innovative technologies in combination with social skills, ability to work in a team and independent working style

### What we offer...

We offer a wide range of benefits, from bonus programs, to retirement planning & assistance contributions, as well as hybrid work model.

For a comprehensive overview of our benefits, please check out our careers page.

### What we pay...

\$81,000 CAD - \$101,000 CAD
