RE: Living Building Challenge Red List Determination Letter

To Whom It May Concern,

Based on information provided by suppliers, WAP Sustainability Consulting attests that the following Schluter®-Systems products do not contain any chemical substances listed on the Living Building Challenge (LBC) Red List, effective April 2024 and last reviewed in February 2025, above 100ppm (0.01%) by weight in the products.

- Schluter® SET
- Schluter® ALL-SET
- Schluter® Primer-U

The LBC Red List is reviewed annually, and products will be screened annually against the most up-to-date LBC Red List to attest conformity.

For any questions, please contact your Schluter®-Systems sales representative.

Sincerely,

Kathleen Kissinger
Sustainability Manager
