

Aluminum Shower Niche – No Tile Required!

Schluter®-**DESIGN-NICHE**

Schluter®-DESIGN-NICHE

Prefabricated, Waterproof, and Ready to Install

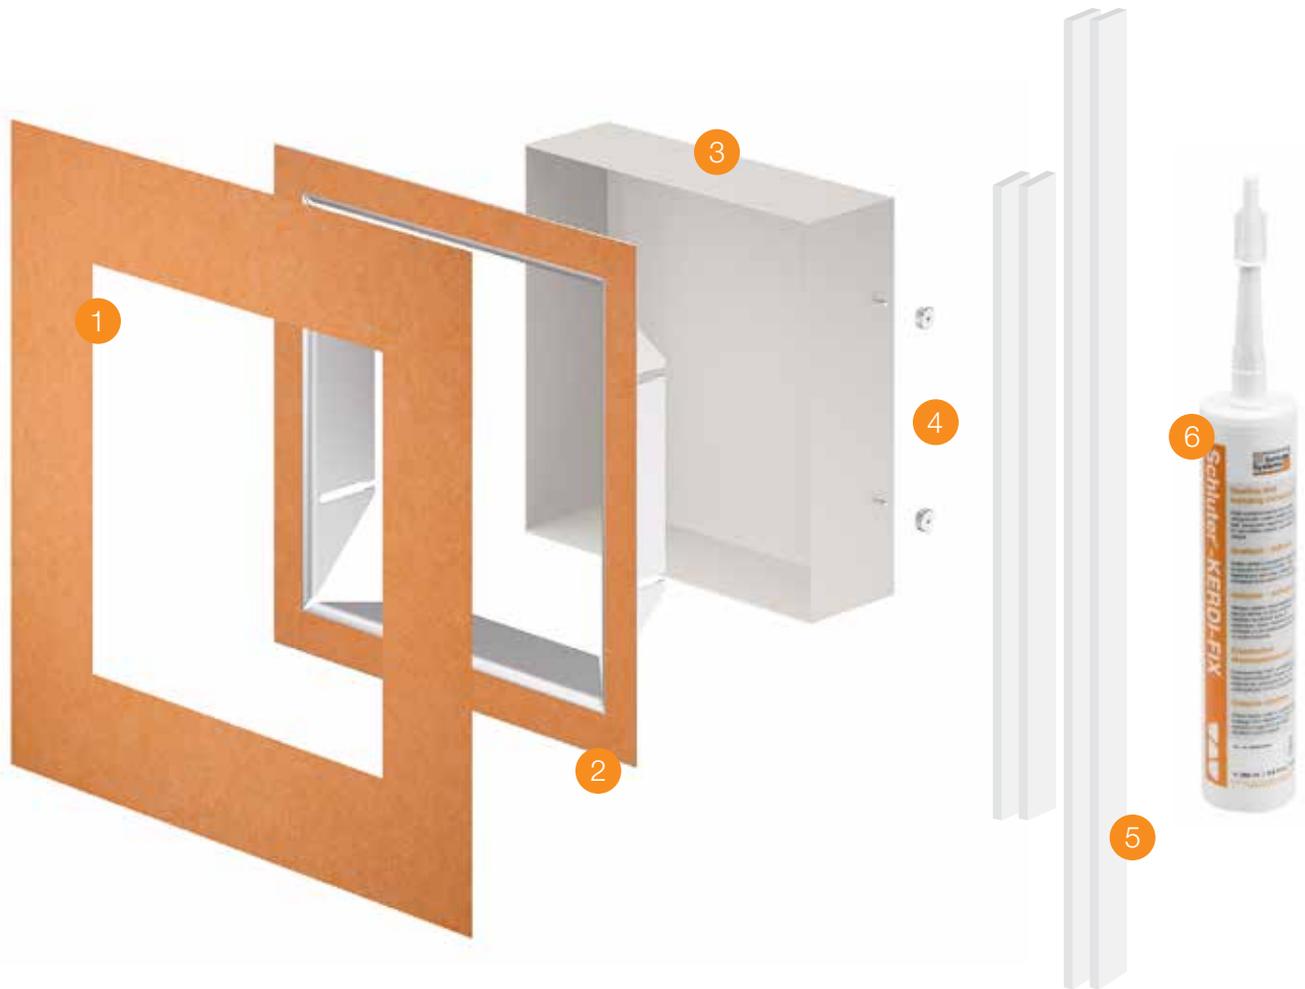

DESIGN-NICHE is a prefabricated, lightweight, aluminum shower niche designed for a fast, waterproof installation. Its powder-coated finish requires no tile, saving time while providing a clean, modern look. It's perfect for creating functional storage in showers, bathrooms, or any other area where style and efficiency matter.

Key Features:

- Durable & Waterproof: Prefabricated aluminum with a powder-coated finish resists rust, stains, and mildew.
- Easy Installation: Lightweight design with all necessary components included for a quick setup.
- Adjustable Frame: Accommodates tile thicknesses of 1/8" (3 mm) to 2-3/16" (55 mm), and can be installed flush with tile or with a reveal edge for a sleek, framed effect.
- Versatile Storage: Ideal for use in showers, bathrooms, or other spaces needing stylish, functional storage.

DESIGN-NICHE System Components

The DESIGN-NICHE system includes all necessary components for a complete and waterproof installation. Designed for efficiency and performance, these components work together to ensure a seamless, functional, and waterproof niche.

1 KERDI-BAND Frame
Waterproof sealing frame to ensure a watertight connection between the niche and surrounding surface.

2 Adjustable Frame
Allows for customization, fitting flush with tile or with a reveal edge for a sleek look.

3 Metal Niche
Prefabricated, durable aluminum construction with a powder-coated finish for corrosion resistance.

4 Adjustable Nuts
Used to hold the niche body at the desired depth during installation.

5 Foam Spacers
Used during installation to keep the adjustable frame flush with the wall surface.

6 KERDI-FIX
High-performance adhesive for sealing and securing the niche, ensuring waterproofing integrity.

Flexible Installation Options

DESIGN-NICHE offers two installation methods, so you can customize the look to best suit your project.

Flush Edge Installation

Aligns with the tile surface, creating a seamless look.

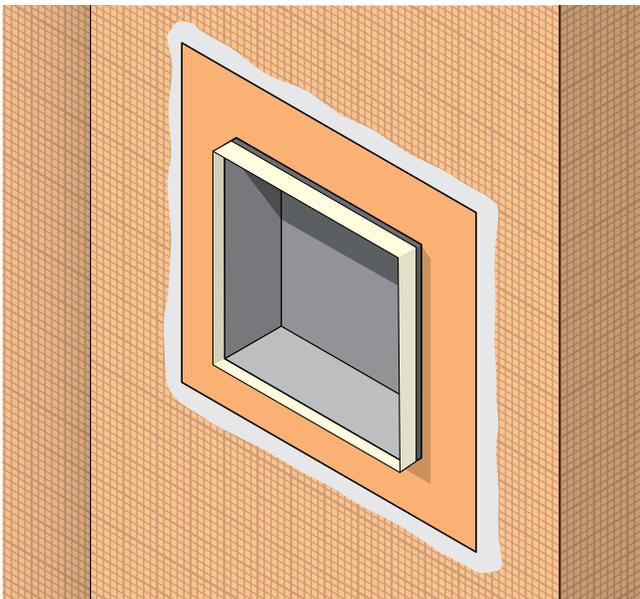

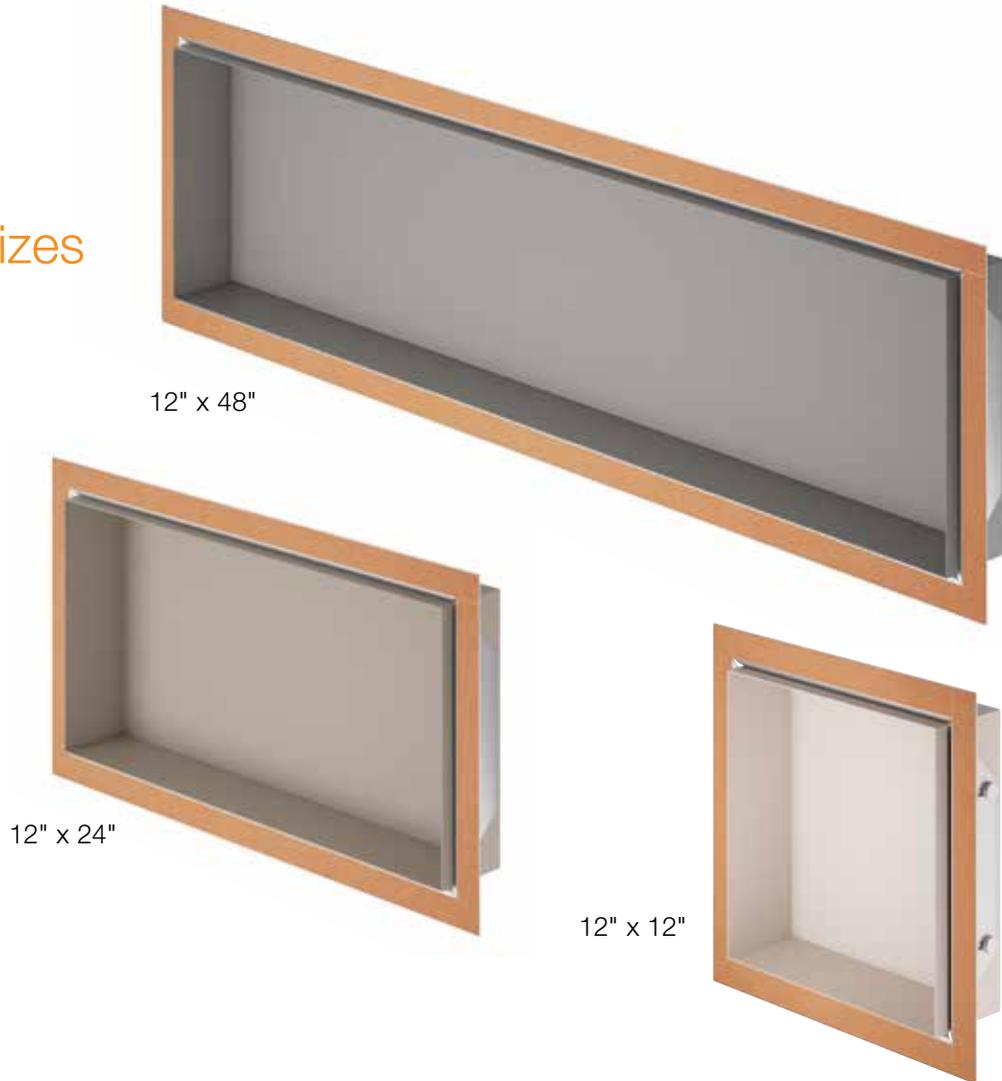

Reveal Edge Installation

Allows the aluminum frame to sit visibly outside the tile, adding a sleek, framed effect.

Versatile Design Options

DESIGN-NICHE is available in a variety of sizes and colors, offering flexibility to suit your design needs. It pairs perfectly with the TRENDLINE family of shelves, drains, and profiles, ensuring a cohesive look across your space.

Available Sizes

Design Compatibility

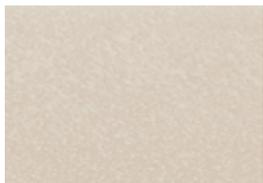

- Coordinates seamlessly with standard tile formats for uniform, continuous grout lines.
- Integrates effortlessly into the Schluter-Shower System for a fully waterproof assembly.
